RE: SEWER MAIN REPLACEMENT ON MARTIN ROAD – CONTRACT NO. 15C-460-1523

****UPDATE****
DUE TO AN UNEXPECTED DELAY,
THIS PROJECT WILL NOT BEGIN UNTIL THE WEEK OF OCTOBER 5TH.

Dear Resident:

The Town of Wellesley Water and Sewer Division contracted with A. Vozzella & Sons, Inc. to replace 235 feet of existing Martin Road sewer main that was found to be in poor condition. The work consists of the excavation of the sewer main between Cleveland Road and Brookfield Circle. This project is expected to take about two weeks. The hours of work will be 7:00 a.m. – 4:00 p.m.

The sewer house services connected to this section of sewer will have their service interrupted for brief times during the construction project. During those times residents will be asked not to discharge anything into their sewer service which includes laundry, showers, flushing toilets and all faucets in the home. Residents will be notified when those interruptions will occur and approximately how long they will take so you can plan accordingly.

Martin Road will be closed from Cleveland Road to Brookfield Circle during construction. Residents who live on this section of Martin Road will continue to have access to their homes. A detour will be in place during the hours of work for all other traffic.

Thank you in advance for your patience as we upgrade the sewer system to maintain the best service possible to our customers. If you have any questions, or comments, please do not hesitate to contact me at 781-235-7600 x3362.

Meghan Condon
Systems Engineer
